Re: Docket Number: E-01345A-16-0036

March 2017

J E-01345A-16-0123

Dear Arizona Corporation Commissioners:

Say no to unjustified charges in the APS rate case!

I am aware that many small businesses, such as mine, work to conserve energy and be as energy efficient as possible. To me, that is an important way to reduce costs that can be better spent elsewhere.

My understanding is the financial increases that APS is seeking would not reward good behavior but instead would apply across the board to those that save and those that waste energy. To me, that is illogical.

Businesses and individuals who successfully save energy should see their bills go down.  
Businesses and individuals who do not successfully save energy should see their bills go up.

I encourage you to vote in favor of efforts to reduce energy which benefits both ratepayers and APS and vote against unjustified increases.

Yours,

Arizona Corporation Commission
